Growing to Meet your Needs

ACUSON X300 Ultrasound System, Premium Edition (PE)

www.siemens.com/ultrasound

The ACUSON X300™ ultrasound system, premium edition (PE) is designed to offer the ultimate combination of performance and accessibility. The open system architecture enables easy and seamless integration of new technologies allowing the system to grow with the user.

Since 1953, Siemens has been pioneering ultrasound to discover industry-leading solutions that help people live better lives. The ACUSON X300 PE is designed to be compatible with a variety of options and future updates offering you versatility and investment protection.

Answers for life.

Enhanced Ergonomics for Ease of Imaging

The new 18-inch high resolution Flat Panel Display (LCD) monitor provides an optimal wide field of view. The integrated monitor handle allows for quick positioning to accommodate the best viewing angle for the user or the patient.

Increased Versatility

Paired with a thoughtfully designed, height adjustable control panel, the ACUSON X300 PE provides you with comfortable scanning in any clinical environment.

Progressing in step with your IT protocol

The ACUSON X300 PE now adds flexibility to your Information Technology communication options. Wireless Data Transfer enhances mobility and supports rapid data transfer while on the go or when you prefer to operate without a wired connection.

Safely streamline your workflow with Ultrasound System Security

Integrate virus protection to protect your ACUSON X300 PE against advanced persistent threats, viruses, malware and other executing software. Automatically and seamlessly protect your system while online or offline.

The products/features mentioned in this document may not be commercially available in all countries. Due to regulatory reasons their future availability cannot be guaranteed. Please contact your local Siemens organization for further details.
